## STRATEGIES EXPLAINED

The Fund is a Multi-Asset fund which invests primarily in passive underlying indices across equities, bonds, alternatives and property assets. The Multi Factor ESG Low Carbon Equity allocation provides equal weighted exposures to the following factor equity strategies - minimum volatility, value, momentum and quality factors. The allocation also incorporates meaningful exclusions which target some of the core themes around responsible investing, which primarily focus on the issue of climate change but also address a number of global social concerns. This is intended to reduce the risks associated with a transition to a low carbon environment while not compromising the risk and return expectations for the fund. The allocations shown to Alternatives relate to passive global infrastructure equities. The allocations shown to Property relate to passive Global Real Estate Investment Trusts (REITs).

## SHARE REGIONAL DISTRIBUTION

The assets in this fund may be used for the purposes of securities lending in order to earn an additional return for the fund. While securities lending increases the level of risk within the fund it also provides an opportunity to increase the investment return. External asset managers may change over time. Non euro currency exposures may be fully or partly hedged back to euro to reduce foreign currency risk. In certain circumstances we may need to delay switches, withdrawals or transfers out of this fund and delays may be significant.

LOW RISK		MEDIUM RISK			HIGH RISK	

## SHARE REGIONAL DISTRIBUTION

## FUND DESCRIPTION

This Fund seeks to track the performance of an index composed of global companies screened for exposure to thermal coal, controversial weapons, tobacco and other controversial industries. These companies are excluded based on specific ESG (Environmental, Social and Governance) criteria. This is designed for investors looking to screen out controversial business areas while maintaining a risk profile similar to traditional benchmarks. The fund switched to tracking this index in October 2019 so fund and benchmark performances reflect this.

# RESPONSIBLE INVESTING KEY CHARACTERISTICS

## RESPONSIBLE INVESTMENT APPROACH

In order to meet the environmental and/or social characteristics promoted, the strategy aims, in so far as is possible, for full replication of the underlying constituents of the index in line with ILIM's approach to indexation.

## OVERALL ESG RISK RATING

The Environmental, Social & Governance (ESG) Risk Rating measures the degree to which a company's economic value is at risk due to not considering ESG factors using a calculation of the company's unmanaged ESG risks.

\*A lower score indicates a lower level of unmanaged ESG risk and potential risk to the economic value.

## ENVIRONMENTAL, SOCIAL & GOVERNANCE RISK SCORE

RISK SCORE*	FUND	MARKET BENCHMARK
Overall	20.6	21.5
Environmental	4.0	4.7
Social	9.2	9.4
Governance	7.4	7.4

## CARBON INTENSITY

Carbon intensity is a metric used to compare company emissions across industries. The absolute emissions is divided by total earnings with the figure expressed in tonnes of carbon dioxide equivalent per million USD of total earnings.

## FOSSIL FUEL

Fossil Fuel Involvement measures the percentage of earnings that companies get from thermal coal extraction, coal-based power generation, oil and gas production, oil and gas based power generation, and oil and gas related products and services.

Note: ESG risk scores and carbon metrics are currently calculated for Shares and Corporate Bonds only.

## ACTIVE OWNERSHIP

We recognise and adhere to the principle of active ownership and exercise the right to vote on issues submitted for shareholder vote.

\*out of 6,637 (91.2%)

Our active engagement policy promotes constructive engagement with investee companies to promote strong corporate governance and effect positive change relating to identified environmental, social and governance issues

## SHARES BY FUND

FUND NAME	%
Mirova Global Sustainable Equity Fund	40.6%
Nordea 1 Global Climate and Environment Fund	39.5%
Baillie Gifford Worldwide Positive Change Fund	19.9%

## STRATEGIES EXPLAINED

The Baillie Gifford Worldwide Positive Change Fund is a global equity fund focused on investing in exceptional growth companies that can contribute towards a more sustainable world for current and future generations. The fund invests in companies that are addressing challenges rather than simply excluding companies that cause harm. Baillie Gifford believe that high quality companies that are addressing society's challenges will prosper over the long-term and that patience is required to generate superior long-term financial returns and a meaningful positive impact.

The Nordea Global Climate and Environmental Fund invests in companies that offer climate solutions to a more efficient and sustainable society. Nordea seeks to identify global leaders in underpenetrated segments of the market that provide solutions for a sustainable society and will generate attractive returns for investors.

## STRATEGIES EXPLAINED

The Mirova Global Sustainable Equity Fund invests in global companies that are positively exposed to, or develop solutions to, sustainable development issues. Mirova adopts an original thematic approach based on long-term trends to identify investment opportunities throughout the value chain and across all industries. The fund selects companies that can deliver performance over the long term, based on thorough financial analysis that evaluates the quality of strategic positioning, management, and financial strength.

The fund managers to the above three funds - Baillie Gifford, Nordea and Mirova - have each confirmed that their individual funds are classified as Article 9 under the Sustainable Finance Disclosure Regulation (SFDR). This classification formally acknowledges that a fund has either sustainable investment as its objective or a reduction in carbon emissions as its objective.

External asset managers may change over time. Non euro currency exposures may be fully or partly hedged back to euro to reduce foreign currency risk. In certain circumstances we may need to delay switches, withdrawals or transfers out of this fund and delays may be significant.

### PROPERTY 3.1%

## STRATEGIES EXPLAINED

The Fund is a Multi-Asset fund which invests primarily in passive underlying indices across equities, bonds, alternatives and property assets.

The Multi Factor ESG Low Carbon Equity allocation provides equal weighted exposures to the following factor equity strategies - minimum volatility, value, momentum and quality factors. The allocation also incorporates meaningful exclusions which target some of the core themes around responsible investing, which primarily focus on the issue of climate change but also address a number of global social concerns. This is intended to reduce the risks associated with a transition to a low carbon environment while not compromising the risk and return expectations for the fund.

The allocations shown to Alternatives relate to passive global infrastructure equities. The allocations shown to Property relate to passive Global Real Estate Investment Trusts (REITs).

## SHARE REGIONAL DISTRIBUTION

The assets in this fund may be used for the purposes of securities lending in order to earn an additional return for the fund. While securities lending increases the level of risk within the fund it also provides an opportunity to increase the investment return.

This fund is provided by Irish Life Assurance plc and is managed by Irish Life Investment Managers Limited. Aon Investments Limited and ILA collaborate on the selection and monitoring of the investment managers used.
